Kumatori Town Mini Guide

Lying in the south of Osaka Prefecture, Kumatori Town is about 30 minutes from downtown Osaka by train, or 15 minutes from Kansai International Airport (KIX). The warm climate and low rainfall make it a comfortable, easy place to live. The town is surrounded by nature, including Okuyama Ameyama Nature Park—officially selected as one of the top 100 green places in Osaka. It's also rich in traditional events and

important cultural properties, such as Kumatori Danjiri Festival, the Naka Family's residence, the Furui Family's Shoin, and the main hall of Raigoji Temple. Urban development is progressing toward the goal of "becoming a place people will want to live in, and be glad they do—a town of comfort and smiles everyone creates together."

From the Editors

.. Exploring sweets and bakery shops all around town ..

"Kumatori Gourmet Map Part 1: Sweets & Bakery Shops" was designed and completed from the unique perspective of young people living in the town. University students in the Kanto area with ties to the region also joined in with the research. Students from universities in both the east and west visited sweets and bakery shops all around town, asked about the recommended products, tried the food, and interviewed the owners to learn more about their shops and wares. Creating this map also helped deepen our appreciation of the local people's warmth. This map is packed with many charming shops in Kumatori Town. Take it along as you explore them all!

Student volunteers from the RUSH Project run by Osaka University of Tourism & Kyoei University

There are many other wonderful shops in Kumatori Town besides these, but there just wasn't enough space to include them all. We hope you find some favorites!
